PLATFORM INFRASTRUCTURE - EVIDENCE GAP REGISTER

1. Module count: README says 9/11; Slack and PR draft say 10/11.
2. Apply owner: README says manual; Slack asks whether Actions applies.
3. State lock table name is questioned in chat; verify configuration evidence.
4. No tested restore procedure or recovery artifact is included.
5. Synthetic only. Never use this as a real Terraform runbook.
